GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by a riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockpounds Constructed Prior to 1969"
- "Appropriation of Water in California"

C. Charles Evans, P.E.

In response to your request for Statements of Water Diversion for District underground wells, please refer to the attached copy of District correspondence dated January 18, 1979. Said correspondence, as well as subsequent correspondence dated June 1, 1995 and June 28, 1996, provides detailed explanations of which District diversions will be submitted to your Department. Please correct your records accordingly.

If you have any questions regarding the above, please contact me at (805) 969-2271.
Thank you for your attention to this matter.

Very truly yours,

C.C. Evans

Attention: Mr. Al Cummings

RE: SUPPLEMENTAL STATEMENTS OF WATER DIVERSION AND USE

Dear Mr. Cummings:

We are hereby filing the Statements of Water Diversion and Use for the years 1976, 1977 and 1978.

Please note that inasmuch as we are not required by the State Water Code to file Diversion and Use Reports on water wells which do not divert surface water from streams, rivers, etc., we will discontinue this practice which has been effect for some years past in this District.

We will, of course, continue to file the reports every three years on the four diversion points used by our District. The four points are as follows:

- No. 351 Jameson Lake (at Juncal Dam)
- No. 352 Doulton Tunnel
- No. 354 Alder Creek
- No. 355 Fox Creek (formerly Morris Creek)

The following diversion point is no longer in use and is hereby permanently discontinued:

- No. 353 San Ysidro Creek

The following water wells have been abandoned and are hereby permanently discontinued:

- No. 360 Buena Vista Well
- No. 356 North Portal Well

The following water wells are still in use by the District; however, reports on them will hereby discontinue due to the above-mentioned reasons:

- No. 357 Neal Well
- No. 358 Hodges Well
- No. 359 Office Well

The following new water wells used by the District have no assigned numbers and no reports will be forthcoming due to the same reasons as the other wells:

- a. Paden Well
- b. Live Oaks Well

Please maintain our name on your records so that we may receive your Form WRCB 40-i for the next three-year period for Nos. 351, 352, 354 and 355.

Yours very truly,

C.C. Evans
